

TURKISH JOURNAL OF OBSTETRICS AND GYNECOLOGY

LETTER FROM THE PRESIDENT

Dear Colleagues,

It is a great honour for me to say hello to you in the March issue of TSOG magazine.

I want to say some words about TSOG (TJOG's) studies.

1. Health ministry wanted the private clinic's of the doctors patient data to be shared by the health ministry. We have applied to the court and the court stopped the application of this sharing. Unfortunately health ministry applied to the council of state (Danıřtay) and the council made the final decision that to share the personal data is not suitable and refused the ministries application. As a result the private clinic doctors do not have to share their patients data with the health ministry. This is a success of our society.
2. We have started a new project namely "TSOD is selecting the RISING STARS of Obstetrics and Gynecology." Obstetricians younger than 40 years in University and Education hospitals will apply for the project and 15 of them will be selected to get further education for presentation, coaching and be the future of our society.
3. We have published "Pregnancy and Nutrition" guideline for the Obstetricians and in the near future the patient model of this will be prepared as a booklet.

We are working for our colleagues. We are producing duty not word. Hope to see you in 13th TSOG congress in Kaya Palazzo Antalya 11-15 May, 2015. This is going to be one of the biggest congress of all the times with more than 400 speakers and 2000 attendees.

I hope health, happiness and success to you all.

Prof. Dr. S. Cansun Demir
President of TSOG
