LETTER FROM THE PRESIDENT

Dear Turkish Gynecology and Obstetrics Family,

I am proud and honored to share the latest issue of our international and well-respected scientific journal in 2024 with my esteemed colleagues. In this issue, I congratulate our department editors, especially our editors, and scientific reviewers taking part in the article evaluation process.

Dear colleagues, TJOD is not only an association of obstetricians, but also an organization giving reaction to professional events in our country in a timely manner. TJOD has contributed to the "Normal Birth Action Plan" announced by the Ministry of Health in October by giving a timely reaction. As TJOD, we have made significant contribution to the preparation of the "Maternity Action Management Guide for Midwives" prepared by the Ministry of Health.

Since we attach great importance to scientific meetings in our country, "TJOD Webinar Series" has been put into effect and attracted great attention. Moreover, the TJOD family has undertaken the responsibility of educating our young colleagues in the light of science, and in this context, it has started the "TJOD Assistant Courses", which is a continuation of the assistant school project previously carried out by our association and the first of which will be implemented in December 2024.

As it is seen, the Turkish Society of Gynecology and Obstetrics is an organization that has a say in many important issues related to gynecology and obstetrics in our country. By committing to the progress of our scientific journal on the scientific platform in 2025, I wish the new year to bring peace, happiness, health and prosperity to our country and the world.

Best Regards

İsmail Mete İtil, Prof. MD

President of TJOD

TURKISH JOURNAL OF OBSTETRICS AND GYNECOLOGY

EDITORIAL

Dear Colleagues,

We are together again with the December issue of TJOD, the international publication of the Turkish Society of Gynecology and Obstetrics. Following a three-month period, we are proud to bring you the articles with the highest scientific value among the many original researches, reviews and meta-analyses sent to our journal at the end of an intensive effort.

I would like to state that the recognition of our journal has increased day by day, reading rate has increased, and it has been cited by scientific journals that have a respected place in our field. Finally, I would like to thank our team who have contributed to this success and used their scientific knowledge for our journal.
