# TURKISH JOURNAL OF OBSTETRICS AND GYNECOLOGY

## LETTER FROM THE PRESIDENT

Dear Turkish Society of Gynecology and Obstetrics Family,

I am greatly honored to be before you once again with the June issue of our scientific journal. As a result of intensive work and effort, we take justified pride in presenting another scientifically strong issue to you, our esteemed colleagues. When our June issue is reviewed, it will be seen that we have included the works of respected national and international scientists. I would also like to share the good news that the current impact factor of our journal, which has gained great momentum, is 1.4.

Dear colleagues, as you all know, we held the 23rd National Turkish Gynecology and Obstetrics Congress at Limak Hotel in Cyprus between 13 and 17 May, with 1,400 participants, 56 scientific sessions, 7 satellite symposia, 13 oral presentation sessions, and the support of 95 sponsoring companies, in a manner befitting the largest umbrella association of our country, both in scientific terms and in terms of the richness of its social content.

With the pride of serving as the president of the Turkish Society of Gynecology and Obstetrics, the largest obstetrics and gynecology association in our country, and with an understanding of scientific and social association work that embraces all our colleagues, I extend my warm regards and best wishes until we meet again in the next issue of our scientific journal.

**Best Regards**

**Ismail Mete Itil, Prof. MD**

**President of TJOD**

## EDITORIAL

Dear Colleagues,

We are once again before you with the June issue of the Turkish Journal of Obstetrics and Gynecology, the scientific journal of the Turkish Society of Gynecology and Obstetrics. During the preparation of this issue, we went through a demanding three-month period together with our editorial board, section editors, and reviewers. Our journal receives significant interest from both national and international platforms. This clearly demonstrates the distinguished position of our journal and indicates that, in the coming years, it will become an indispensable cornerstone of prestigious scientific indexes.

In our June issue, in addition to our scientifically high-quality publications, we have also included the poster and oral presentations presented at the congress organized by the Turkish Gynecologic Cancer Foundation in Ankara on 3-5 April 2026.

We would like to share with our esteemed colleagues that our dedicated efforts will continue, and we look forward to meeting you again in the September issue, the third issue of 2026.

**Best Regards**

**Ercan Yilmaz, Prof. MD**
